

Systemised Solutions 4 Your Need

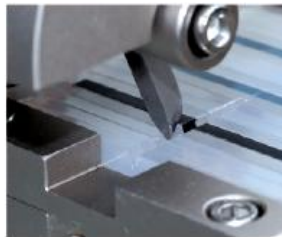

**HEM TECHSYS**  
PRIVATE LIMITED  
[www.hemtech.in](http://www.hemtech.in)

It is designed to notch specimens for Charpy & Izod impact tests. 20 specimens may be clamped at one time and at least 100 specimens may be notched in 10 minutes. It allows a perfect reproducibility of the notches, increases working efficiency and reduces the labor intensity.

- ◆ Worktable stroke : >90mm
- ◆ Specimen making capacity:  
> 100 pcs/10 min
- ◆ Notch specification:  
According to the knives' specification.
- ◆ Feed measurement: 0-2.5mm (optional)
- ◆ Feed stroke: 10mm
- ◆ Dimensions: 400mm ×270mm×300mm
- ◆ Power supply: 220V/50HZ
- ◆ Knives specifications:
- ◆ Type A:  $45^\circ \pm 0.2^\circ$   $r=0.25 \pm 0.05$
- ◆ Type B:  $45^\circ \pm 0.2^\circ$   $r=1.00 \pm 0.05$
- ◆ Type C:  $45^\circ \pm 0.2^\circ$   $r=0.1 \pm 0.02$

Any one cutter as standard supply.  
Please specify while ordering

**Digital Depth Gauge**  
Ideal for measuring the Notch Depth.
