

PEEL TESTER

Model : HT-PEEL-H

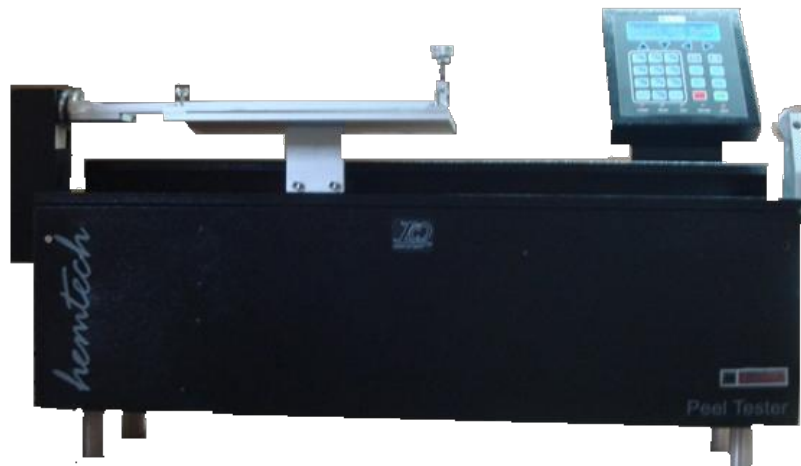

HT-PEEL-H is a specially developed Horizontal Peel Tester for near 180 deg. Peel Test for Adhesive Test on various substrate.

Easy to operate Micro-controller based system provides ease of operation. It is simple but very accurate.

Digital Display and key board helps in easy setting up and testing.

Application

Determines the **Peel Strength** of Adhesive tapes

Features

- Desk Top system
- Accurate Force Measurement
- Precise Drive system
- Digital Operating Console
- Digital Readout
- Easy to Operate
- Computer interface & Software (Optional)

Specification

Mounting	:	Desk Top
Loadcell	:	5000 gms
Possible to Test	:	Peel for Adhesive Tapes on different substrate
Contact Area	:	Middle 25 mm
Speed	:	Selectable
Resolution	:	0.1 gms
Electrical Supply	:	230V, 50 Hz
